

Light Facts THAT ARE WEIGHTY

You burn gas to get the best possible store light for your money. We raise the question, are you getting it?

Depends upon your lamp. Five feet of gas consumed through the ordinary flat-flame gas burner will produce under the most favorable conditions twenty candle power light.

Five feet of gas with the

Humphrey Gas Arc Lamp

Will produce **One Hundred Candle Power Light!**

In other words, the Humphrey Arc Light gives **five times** as much light with the same gas consumption!

These are vital facts, Mr. Merchant, of vital interest to YOU. A walk down the street some night—a comparison of the "Humphrey" with the other lights you see—will prove this matter to your own satisfaction and profit.

IMPORTANT CHANGES TAKE PLACE IN RAILWAY CIRCLES THIS MONTH

F. N. Finney, C. S. Clarke and R. V. Taylor Assume the Positions of Henry Rouse, Russell Harding and William Cotter—Vice President Hammond Goes to Chicago in Charge of the Frisco Lines East of the Mississippi River—E. L. Russell Is Elected Vice President of the Mobile and Ohio.

C. S. CLARKE

R. V. TAYLOR

F. N. FINNEY

R. V. TAYLOR

RAILROAD OFFICIALS WHO HAVE ASSUMED IMPORTANT EXECUTIVE POSITIONS IN ST. LOUIS RECENTLY.

Within the last few weeks decided changes have taken place in the official roster of St. Louis railway men. Four new executives have succeeded to places made vacant by the same number: a vice president has been appointed as well as a general manager, and a vice president has had his headquarters changed from St. Louis to Chicago.

By the resignation of Henry R. Rouse, Frederick N. Finney has been made president of the Missouri, Kansas and Texas Railroad Company, but, unlike Mr. Rouse, who had his office in New York, Mr. Finney has seen fit to establish himself in St. Louis, thereby making St. Louis the headquarters of another railroad system.

Mr. Finney is from Milwaukee, and, while an able railroad official, has been more identified with finance in the last few years. The much-discussed successor of Russell Harding, vice president and general manager of the Missouri Pacific, was appointed in C. S. Clarke, general manager of the Mobile and Ohio. Mr. Clarke succeeds Mr. Harding as vice president, but does not retain his title of general manager.

Mr. Clarke is recognized as one of the most able railway executives in the United States, and the position which he held with the Mobile and Ohio was so satisfactory to himself and the company that it is understood that Mr. Clarke had to offer him exceptional inducements to come to the Missouri Pacific.

The title of general manager was assumed by A. W. Sullivan, assistant to the second vice president of the Illinois Central, who has taken the office formerly occupied by William Cotter, then manager of the Missouri Pacific and now general manager of the Pennsylvania.

Under Mr. Sullivan, Mr. Sullivan has had opportunity to learn the practical side of railroad management and it is stated that he has thoroughly availed himself of his opportunities.

Another feature, which has occasioned universal regret, is the departure of R. R. Hammond, vice president of the Frisco. Mr. Hammond will have charge of the Frisco lines east of the river, and his headquarters will be in Chicago. He recently came to St. Louis from that city, and it was hoped that this would be his permanent abode, but, with the resignation of Mr. Rouse from the Rock Island and the consequent change in policy, Mr. Hammond's move was deemed advisable.

It was feared that the man in the ranks made by such men as William Cotter, manager of the Missouri Pacific, and Russell Harding, vice president, could not easily be filled, as both men have won a high place in the estimation of local railroad men by their ability and personal characteristics. But it is the general opinion that Mr. Sullivan is a man of the highest caliber.

She was removed to the City Hospital and is now out of danger. Her health is supposed to be permanently improved.

Wedding Rings (Solid Gold). Finest qualities, \$5 to \$20. Mermod & Jaccard's, Broadway and Locust.

Will Go to Meet Fushimi. Japanese Will Show Unusual Honor to War Hero.

Washington, Oct. 15.—According to present plans, Mr. Takahira, the Japanese Minister, will himself go to San Francisco to meet Prince Fushimi, the special envoy of the Emperor of Japan, who will arrive in this country about October 20.

The unusual action is contemplated because Prince Fushimi is probably the most distinguished envoy Japan has ever sent to this country. He is one of the heroes of the present war, and was the commander of the Japanese forces at the battle of Haman Hill. He will be officially entertained in Washington at the legation, and there will be much ceremony to accord with his rank.

Mr. Takahira has not been absent from Washington more than a few days for some time, and his trip to the Pacific Coast will be his last vacation. If the Minister is unable to leave the legation at the time, one of the secretaries will go to San Francisco to act as escort for the Prince and his party.

Rheumatism, more painful in this climate than any other affliction, cured by prescription No. 2351, by Elmer & Amend.

A. J. Hogan Kills Himself. Paducah, Ky., Oct. 15.—A. J. Hogan, a local retail grocer, killed himself today by shooting himself in the temple.

Repairing of Fine Watches. Jewelry a specialty. F. W. Drost, Seventh and Pine.

St. Louis Pastor Presided. Evansville, Ind., Oct. 15.—The corner stone of the Evangelical Bethel Church was laid today, the services being in charge of the Reverend Paul Pfeiffer of St. Louis.

Girl Attempts to Kill Herself. Mamie Sybert, 21 years old, of Caseyville, Ill., who for the last week has been visiting at the home of her sister, Adelaide Sybert, No. 122 Washington avenue, attempted to take her life early yesterday morning by drinking carbolic acid to No.

The World's Greatest Jewelry Establishment.
